

# Ford Romania Intern Program Internship Workplan

<b>Project Name:</b>	Web application to control the IT equipment	<b>Supervisor Name:</b>	Costi Circiumaru
<b>Department Name:</b>	IT	<b>Supervisor CDSID:</b>	ccircium
<b>Assignment Location:</b>	Craiova	<b>Supervisor Position#:</b>	IT Manager

## Project Description

Development of a web application to control the IT equipment (PC's, printers, telephones, etc.) : location, responsible person, maintenance actions

## Measurable Objectives

- The application must be accessed via web by IT hardware and network engineers using their CDSID and password
- IT hardware and network engineers must be allowed to input any change of location and responsible person, as well as the maintenance date and status
- Department managers must be allowed to see the equipment for their employees
- IT hardware and network must be allowed to see all equipment in plant

## Expected Major Contributions

- Reduce the time to record the equipment movements and maintenance actions
- Better control of equipment

## Expected Benefits to Intern

- Work time optimization for managers and IT hardware and network engineers
- Eliminate the errors

## Intern Qualifications (schooling, work experience, major)

- Knowledge of .NET, SQL required
- Web programming skills required
- Demonstrate ability to work with others in a team environment
